

# Bonadeo Boatworks 34 CC

When Quality Counts!

34 CC IN DETAIL

**T**hanks to a family owned and operated philosophy, Bonadeo Boatworks primary focus is the conception and manufacture of custom sport fish boats. The spectacular vessels this team unveils consist of composite designs combining nothing but the finest components. Each 34 CC is designed one at a time starting with conceptual ideas from the prospective owner, through finalization with the naval engineer, designer, and finally the builder. From this point, the technologically advanced manufacturing process begins. This is where the builder and intended owner customize the platform from a hands-on perspective, resulting in uncompromised attention to detail, the

highest quality of construction, innovative ideas and future accessibility of systems for ease of maintenance, now and in the distant future.

Each 34 CC is built by sandwiching core-cell composite foam coring between layers of Kevlar, E-glass and carbon-fiber, and then bonding the layers together with a high-quality epoxy resin. And whenever

## SPECIFICATIONS

L.O.A	33'11"
Beam	9'11"
Draft	22"
Weight	7,200 lbs.

Freshwater	50 gal.

possible, redundant systems are installed so the adventurous angler need not postpone a trip to wait on parts.

Like all Bonadeo's, 34 CC owners can choose under-deck rod storage, ice machine, fully finished stand-up head, bunks, teak decking inside and out, enormous fish boxes and so much more. In fact, the long list of options is only limited by the buyer's imagination.

## Bonadeo Boatworks 34 CC

The Bonadeo 34 is built from the keel up with features and amenities normally reserved for large custom yachts including, cambered decks, structural bulkheads, a central drainage system and a separate pump room. Other notable features include electrical panels with spark suppression and faired and painted bilges.

## ABOUT BONADEO BOATWORKS

Sleek, clean and exactly what you want is what you get from Bonadeo Boatworks based in Stuart, Florida where this father and son team creates custom and semi-custom yachts from 30 to 50-feet. Built one-at-a-time with the latest technological advancements, Bonadeo boats are constructed with a cold molded process utilizing Kevlar, carbon-fiber, bi-axial glass, epoxy and structural foam cores which are cured in a vacuum environment. This innovative design creates the strongest one-piece construction on the market, offering the softest ride in the sea! Not to mention high-performance handling and superb design features from one of the industries leading innovators. Seatrial a Bonadeo today, and experience the difference for yourself.
